World President, in Armistice Address, French Cabinet Asks Co-operation for Peace and Rebukes Old World Critics

WASHINGTON, Nov. 11. (P)—Ten years to a day after the close of the World War President Coolidge tonight replied in spirited language to criticisms of American isolation from the Old World and at the same time reiterated the necessity of a more adequate naval defense for the United States and its possessions.

The President spoke at a meeting sponsored by the American Legion, and before delivering his address he had gone to Arlington National Cometery with Mrs. Coolidge to place a wreath on the tomb of the Unknown Soldier.

In a manner unusual for him, after paying tribute to those who contributed to American success, he went into the personalities which loomed large in the great conflict, singling out Admiral Sims for his work with the Navy, and Gen. Pershing for his services as head of the American Expeditionary Forces, saying of the general that for the outstanding accomplishments of the Army America is indebted to his genius.

The President dwelt at length on American accomplishments and sacrifices in the past and its necessities for the future, condemning claims that the United States had profited out of the war, and asserting strongly the needs of the nation for security in the future.

SACRAMENTO, Nov. 11. (#)—
Three men were injured, two perhaps fatally, when the plane in which they were flying, fell approximately 1000 feet at the municipal airport here today. The injured are, Melvin Thompson, 35 years of age, Sacramento logger; Walter Lockhoof, Sacramento, pilot of the plane, and a man named Webber. The accident occurred when Lockhoof attempted to grape culture. Even if the eruptions should cease abruptly, a boon only vaguely hoped for, the total loss must run into many million lire.

(Exclusive)—Mt. Etna's mighty drams is a tragic comedy having a lighter side.

Several kilometers away from the lava front your loquacious Sicilian retains unconfined admiration for his magic mountain. He fears it greatly, but also loves and admires it. Sicilians out of the danger zone speak with an air of pride as if they possess a perfect pyrotechnical machine of which few examples exist in the world.

On the train between Messina and Taormina, carrying hundreds of curious sightseers from the mainland, a Neapolitan and Sicilian were discussing the respective merits of Mt. Vesuvius and Mt. Etna would be the winner," said the Sicilian. "Mt. Etna is not an elegant little fire juggler in the Oulf of Naples, like Vesuvius. Mt. Etna is a real volcano with one big crater and 200 small ones, while Vesuvius has only one mouth."

The man from Naples seemed aquashed.

(P)—The law has held George Coleman, 40-year-old negro, gullty of killing, in an insane carousal of death, but no legal retribution is possible as funeral services were planned today for victims and slayer alike. Vengeance by accident overtook Coleman as, fleeting from the place of his crimes, near here, he fell under the wheels of a train he sought to board at Jennings, La., and was decapitated. The negro went to the home of Dupre Mallette, rice grower near here yesterday, shot Mallette down and clubbed him to death; killed Mrs. Mallette with the same pistol, then turned on three of the Mallette children, William, 11 years of age; Laura, 8, and Ada, 3, and slew them.

After the Chief Executive had deposited the floral tribute, the group stood in reverent silence for a moment. He and Mrs. Coolidge then went to attend church services dedicated to the memory of the war dead.

Among those who also honored the Unknown Soldier today were some army chaplains who had been present at the first ceremony in 1921. John P. PAN-AM MOTOR **CLEANING MACHINE**

"1-2-3-GO!"-it's as easy as that to start on cold mornings—to get away in traffic—to get out ahead of the line in boulevard traffic— if you take advantage of the three-services the Pan American dealer offers! The first is the once a month use of the Pan-Am Motor Geaning Machine to wash out the crankcase, motor and oil lines of your ear—removing every particle of muck, grit, metal filings from the crankcase—and the acid-laden earbon seum that polutes the fresh oil every time you refill. Unless this debris is removed, you do not get full efficiency from your lubricating oil, you submit the moving parts of your car to dangers of undue wear, and by this neglect you put your ear into the slug-gish "old-age" class. The Pan-Am Motor Cleaning Machine is the only way by which the inside of a motor can be kept 100% clean! The most thorough "flushing" gets only 32% of the dirt out — "draining" gets even less! The Cleaning Lubricant used is 100% lubricaning oil and not a "cutting agent."

PAN-AM MOTOR

The second contribution of the Pan American dealer to the better performance of your car is Pan-Am Motor Oil!—The oil that Pan-Am Motor Oil:—The oil that maintains "the perfect seal" by means of a tough film between cylinder walls and piston rings!

WASHINGTON, Nov. 11. (#)—
Robert W. Stewart, chairman of the
board of the Standard Oil Company of Indiana, will go on trial
in the District of Columbia Supreme
Court tomorrow on perjury charges
growing out of his testimony before the Senate Public Lands Committee regarding the Continental
Prading Company.

Containing three counts, the indictment charges that Stewart perjured himself when he denied knowledge of the distribution of the
bonds held by the company, \$238,

In practically every beaded frock the pattern of the beads traces the line of the frock. The basque waist is interpreted in rows of tiny beads, making a gathered effect. A drape at the hip is held by an elaborate pattern of rhinestones, sequins and paillettes. Godets are outlined in beads, a banding gives accent to a deep decolletage, paillettes in gold give a bolero line to a gown of black chiffon. Floral patterns, pale pink flowers with delicate green leaves blend softly with the apricot coloring of a georgette frock.

Each Frock is distinctive, just one model in each color, but a large selection in frocks for young women and women of mature years who require dignified classical lines. The colorings include pistachio green, orchid, flesh, light blue, pale grey, red, black and white.

A few frocks in chiffon with long trailing skirts and frocks of bouffant type with silk net are embroidered in rich chenille flowers and metal threads. An advantageous selection may be made now for the social festivities of the

fidence in the outcome.

The Tartans are undefeated and the team is undoubtedly one of the strongest in the East. Although the squad is composed of a ficek of sophomores the gradual improvement in the team's play indicates plenty of trouble for future opponents. If the Irish succeed in staving off the Tartan horde it can be safely predicted that a Notre Dame victory will come only after a bitter struggle.

ter struggle.

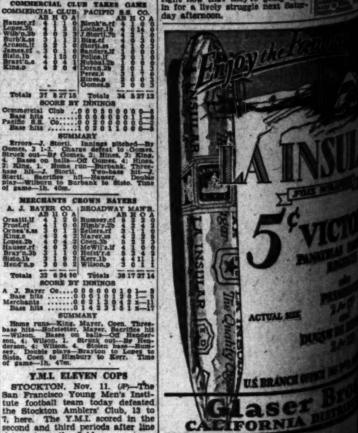

It is axiomatic in football history at Carnegie Tech that the team always plays well against Notre Dame. The 1928 team will face Rockne's boys with the confidence that they will play well enough this year to win. Reports from South Bend are that the game has attracted attention from the beginning of the season and that the largest crowd in years will be on hand to see the classic.

OATMAN (Ariz.) Nov. 11. (Exclusive)—Eight feet of ore, sampling from \$12 to \$14 gold, has been developed on the east rift of the \$00 level Tom Reed Astec workings up to the United American end line. The latter company is assured of profit in operations now being prosecuted toward the ground thus developed for it without cost.

Excellent ore is coming from the winze below the \$00 level on the Astec, this to be utilized with greater profit as soon as a tram is completed from the Black Eagle shaft to the mill, which then is to be stepped up to 100 tons a day.

United American has pushed its shaft \$80 feet toward the 1200 level, on which the main development is to be toward the Astec. A station is to be cut on the \$00, feron which will be lateral work. There is local belief that the American is a coming producer of the largest proming continued to the state of th

Grand officers of the Native Sons and Daughters of the Oelden West unveiled a permanent memorial in the form of a petrified stump for halted at 11 a.m.

In Pasadena a speaking programus conducted yesterday in the Shakespeare clubhouse with Baron D'Estournelles as the principle speaker. Kenneth Robinson, a student at Caitech, also spoke as did Mme. Daugaarde of Copenhagen.

"This is a time for calm communion with one's soul rather than the noisy blatant celebration," said Baron D'Estournelles, who is professor of French at Scripps College. In speaking.

Galen Clark, naturalist, who discovered the Sonoma county petrified forest and Mariposa big trees, at ceremonies conducted last night in the civic park at Carthay Center. James A. Wilson, grand president of the western organization, unveiled the petrified wood, a stump approximately four feet high and two feet in diameter, with its top highly polished. Herman Litzensonies.

The principle "in unity is strength," has never failed its purpose, applied to social, political or moral issues. On this universal principle the charitable work of a city has been condensed into one all-together effort. Our Los Angeles Community Chest represents 131 social, philanthropic and charitable apencies. If prevents overlapping, It saves duplication. It reduces overhead. It acts as investigator and trustee for the giver.

If each of these 131 agencies had to work separately, overlapping, duplication and overhead would consume a large proportion of the city's charity before it reached the objects aimed at. The cost of administering the Chest is only 1.79 per cent of the funds distributed. The cost of the annual appeal for funds is only 5.8 per cent. He went on to tell us of dozens of equally foolish incidents which had occurred while he was a merchant. In his store, he had built up a strong demand for American goods, but not without great effort. Too often his recommendations to American wholesalers were disregarded. To meet certain local conditions, or customs regulations, or local inspection laws, he had recommended changes in original packages. In numerous cases the American wholesalers had declined his requests, but German and other foreign houses had been glad to meet them.

"And yet," he said, "a lot of those fellows simply can't see why good customers are being taken from under their very noset by foreign house, send men here to study the likes and dislikes of these people, while a good many of ours merely send bright young men here to sell them."

"Mr. Fitz," as he is affectionately known by many thousands of American salesmen and tourists whom he has helped with wise and generous counsel—and even got out of jall sometimes—lived in Mexico more than thirty years, first as a merchant and then as an American consular officer in Monterrey. He knows the language, the people, the trade and social customs, the intricacies of trade, the little grievances Mexican buyers have against our system of weights and measures, the kinds of cartons and packages which would suit them best, and the best ways of handling accounts down there. But nobody asks him about those things. Most people would rather ask some authority who has apent three weeks down there.

Mr. Fitz dropped in to see us yesterday. He and his wife had been over to the old. Plaza to have funcheon and talk about Mexico. That was the only place where they could find people who were eager to talk about it as it really is.

We were a clerk under Mr. Fitz some years ago when a trade delegation from Los Angeles passed through Monterrey. Then Mr. Fitz came into our office and showed us a telegram. It was from the foreign trade manager of a large Los Angeles concern, and read: "Will arrive in Monterrey at 7 p.m. Will be there only one hour. Have the trade at the station to meet me."

"That shows you all the foreign trade manager of that house knows about Mexico,"

of November, nineteen hundred and twenty-eight, that the political pharaoh, misleader of many thousands, was totally overthrown in the Dead Sea of the Wets, the coze from which fed the Smithsonian swamps. Thus it was that the people called Americans rose up in their multitudinous might, saying with a voice like the voice of many trumpets, "We, of Thomas Jefferson and Abraham Lincoin will not have the Tammany Tiger to rule over us," and it hath been even so unto this day. Moreover it shall be so for many tomorrows to come. Amen.

Now it shall come to pass in the gusty and glorious days of springtime, in the month of March, nineteen hundred and twenty-nine, that Herbert, called Hoover, shall, with solemn oath take the highest seat of authority in this great land between the seas. Then shall the fields and farms flourish and prosper. Then shall the tiller of the soil have sympathetic understanding from the righteous ruler of the people. Then shall the midton be protected from the political plunderer. The larceny of power shall be prevented. Obedience to law shall once more become the religion of the nation. The high sanctities of the human homes shall be restored. The Constitution shall be supported by the Executive who shall solemnly declare with his hand on the Holy Bible that he will, "God being his helper." The people and their President shall restore the spiritual ideal to the hungry heart of a great republic. This golden crisis of the nation is at hand. Two Chow pupples will occupy the spotlight in Superior Court Wednesday when Judge Gates con-ducts a hearing on an order re-straining M. J. Frindle and Dr. W. G. Curtis from disposing of the dogs.

Co. Curtis from disposing of the dogs.

The order was obtained from Judge McComb on petition of P. E. Fall, owner of an Ingraham-street apartment-house. Fall told Judge McComb that Grindle, said to be the owner of the dogs, was in arrears of his rent and gave Fall a note for \$50 and an order for one of the Chows in exchange for admission to his apartment.

Fall asserts now that he has a note and no puppy, so he asks that Grindle and Dr. Curtis, said to be in possession of the dogs, be restrained from disposing of them until the matter is settled in court.

Which ends Friday, the Criterion Theater has booked Pirst National's taker pirst National's special "Lilao Time," starring College Gooper, Cliver Cooper, Burr McIntoch, George Cooper, Cliver Moore, Kathryn McGuire and Eugenie Besserer. It begins a popular run the next day.

The Criterion management expects a heavy patronage for "Lilac Time," for it is the first big special "The Dark Angel" and "The Night of Love," directed.

The story, though it takes place in a little French village during the war, is essentially a romance rather than a tale of fighting men, even though there are many air scenes approaching those of "Wings" for breath-taking daring, Colleen takes the part of Jeannine, the wistful little French girl, and Gary Cooper, Cliver outsil, Madge

"SISTERS OF EVE" SHOWN SINGLE DAY

IN THE BURLESQUE WORLD
Employing quite a number of colorful dancing and singing ensembles, "Kuddling Kuties," this week's burlesque at the Follies, is a good bill for laughs. Comedia as Coleman and Barkham are described as having an 'ingratiating style of smart-cracking all their own. Hazel Miller and Billie O'Neill, singing and dancing soubrettes, put their numbers over effectively. Specialty numbers are also offered by Judy Butler, Marion Douglas and Violet Wagner, who appear in regal costume. The chorus girls are a feature, as always.

Laundry Driver in Liquor Net

SOUTH GATE, Nov. 11. — As a hundryman representing a Los Angeles concern was making his rounds here, he was asked by a woman at a home at which he called if he could get her some twisty. He replied in the affirmative, and she is said to have given the driver a marked \$10 bill. While he was conversing with the woman, two local officers hid themselves in the rear of the laundry truck. The driver drove the machine to the M. F. Van Horn place where he secured the asserted whisky. Van Horn was then arrested. The woman is said to be a member of Capi. James Benton's liquor squad, this having been unknown to the laundryman. The man's name was not made public. Van Horn is charged with possession.

knotty job over to young Mr.
Chardy, assistant to the Attorney-General.

Now only \$1800 remains unpaid, or less than 1 per cent.
And the cost of collections has
been but a little more than
\$6000. When a gasoline station
refuses to pay its gasoline tax,
the State police take hold of it
on a warrant of seizure and if
the proprietor still declines to
come across it is sold.

So far it hasn't been necessary to sell one. The smallest
amount collected was 50 cents,
the largest \$662,000, came from
the Detroit United Railway. The
receivers assured Mr. Chardy
the company had no money.
Chardy put up a notice that the
lines were to be sold for taxes.
Then the entire amount was
paid. . More and more business methods are being injected into government—[Capper's

Transmission Must Not Cause Interference

Board Restricts Wave Length and Hours

New Regulation Indicated After January

BY DR. RALPH L. POWER Following its broadcast changes which were effective yesterday, the Radio Commission releases the in-formation that it will permit the formation that it will permit the use of the broadcast band for experimental picture and television transmission up to January 1.

There is a stipulation, however, that the use of the band must not interfere with sound broadcasting. Picture transmission must be kept within a band of ten kilocycles and shall be confined to a period of time not exceeding one hour in each twenty-four.

Picture or television transmission will not be allowed in the band between 6 and 11 p.m., local time, and specific authority must first be obtained from the commission for the use of specified frequencies for picture transmission.

EXPL. Bob Green.

EXPL.

UNTIL JANUARY ONLY

"The extent to which picture and television broadcast in the broadcast frequency band will be permitted after January I, if at all, will be determined by later orders," reads the communication. "This will depend on investigation of the results in the next few weeks with respect to interference and the popularity of such transmission with the public.

"It will depend further on the interpretation which the commission shall be advised is proper of the obligations of the United States under the International Radio Telegraph Convention of 1927 with respect to permitting anything other than telephonic transmission in the broadcast band."

Because Miss Jessie Thornburg, 60-year-old retired school-teacher from Ohio, did not know that her permit to pass out real estate advertising on the streets of the city is void in the public parks, Municipal Judge Bullock suspended a jail sentence when the woman was taken into court charged with violation of the city ordinance which prohibits soliciting in parks.

The sentence was suspended on condition that Miss Thornburg acquaint herself with the laws covering her vocation.
